25X1A9a processing was to be kept to the minimum. Even this minimum is disturbing to an instructor who has a valid claim on the full-time attendance of the students. But the minimum was far exceeded this month, so much so that 5 persons complained, in their critiques, of the absenteeism that processing imposed on them. A particularly distressing example of this was the experience of the newly-hired [REDACTED] who joined the class late Monday and was then repeatedly pulled out to go here, there and everywhere--including lengthy briefings at Glebe prior to attending the Ops Fam course; he must have been rendered schizoid by week's end. I shall take up this matter with Mr. [REDACTED] C/Personnel [REDACTED]

25X1A9a b. Mr. [REDACTED] currently chief of support in Saigon, taped on August 11, when he was home on TDY, a review of the support structure of Vietnam Station; this was re-played to a very attentive class.

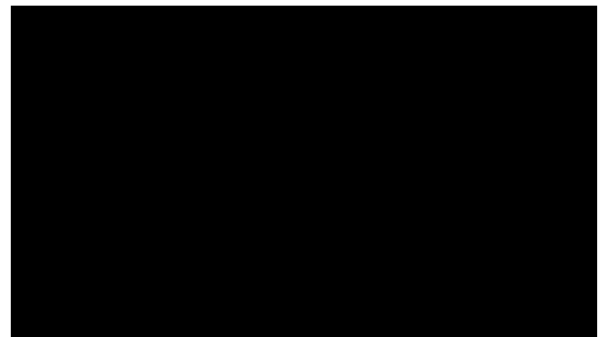

4. Critiques

The critiques continue to be favorable; and without intending any invidious comparisons, I am happy to quote the following:

"Having just completed the myriad of lectures involved in the CT course, I was frankly hesitant about this course. I have found it, however, to be an excellent course and the speakers and material presented have been of genuinely superior quality to my previous classes."

which?

As mentioned in Para. 3, a above, 5 persons complained about absenteeism because of processing. Also in the complaint line, 2 persons want me to "Heat that room!" (1 A 07)
